Career Objective

An engineer seeking for the position where I can utilize my professional skills towards the growth of the organization. Ability to accept professional challenges and opportunities to make use of my strengths and build up my career.

Educational Qualification

- **M.I.E.T. Engineering College, Trichy**   2021-2025
  Bachelor of Computer Science and Engineering
  90%

- **Tansri Ubaidulla Matriculation Higher Secondary School, Rajaghiri**   2020-2021
  HSC
  89.7%

- **Tansri Ubaidulla Matriculation Higher Secondary School, Rajaghiri**   2018-2019
  SSLC
  85%

Experience

- **CodeBind Technology, Chennai**   11.07.2024 - 09.08.2024
  Intern
  Gained hands-on experience in full-stack web development using HTML, CSS, JavaScript, PHP, and MySQL. Worked on designing user-friendly interfaces and developing robust back-end functionalities to manage data efficiently.Enhanced skills in collaborative development, responsive design, and database integration during a one-month
  internship.

- **Lenovo India Pvt. Ltd, Puducherry**   01.09.2024 - 30.09.2024
  Intern
  Completed a one-month in-plant training program, gaining industry exposure to real-world IT and technology operations. Learned about hardware systems, software processes, and best practices in the tech industry.

Co-Curricular Activities

- **Symposium at SRM TRP Engineering College**
  Took part in a symposium at SRM College, where I competed in a debugging competition and presented a paper on **AIML** topics. Gained experience in problem-solving and shared knowledge about *AIML* technologies.
- **Workshop at Mount Zion College of Engineering and Technology**
  Attended a one-day workshop on website design using Figma. Learned to create user-friendly layouts and designs to improve website usability.

Skills

- Python Programming
- Java Programming
- C Programming
- Microsoft office suite(word,excel,PowerPoint)
- SQL Programming
- Web Development (HTML,CSS JS)

Projects

- **Hospital Management System Using Web Development**
  Designed and developed a responsive, user-friendly web application for managing hospital operations. Implemented modules for appointments, services, and blogs using HTML, CSS, JavaScript, PHP, and MySQL. Focused on frontend responsiveness and back-end functionality to enhance user experience and system efficiency.
- **Online medicine shopping system Using Java**
  Created a Java-based application that allows users to browse and purchase medicines online. Implemented features for user login, product search, order management, and cash-on-delivery (COD) payment method for simplified transactions.
- **CGPA calculator Using C++**
  Developed a program in Turbo C++ to calculate both GPA and CGPA, allowing users to input grades for multiple subjects. Designed with efficient logic for accurate computation and enhanced usability for academic performance tracking.
- **E-commerce website using Figma tool**
  Created an interactive and user-friendly prototype for an online shopping platform using Figma. Focused on enhancing user experience with intuitive navigation, modern design elements, and streamlined product browsing and checkout processes.

Awards

- NPTEL Certified joy of computing using Python
- Google Certified crash course on Python
- Microsoft Office Suite (Naan Mudhalvan, Microsoft).
- IBM certified Cyber Security Fundamentals
- AIML Course (Microsoft,Naan Mudhalvan).

Strength

- Collaborative team player
- Problem solving
- Quickly adoptable
- Positive attitude

Languages

- English
- Tamil
